Contents Volume 25 1990

Special Issue "Third International Eclogite Conference" edited by M. Okrusch

Preface, by M. Okrusch (Würzburg, F.R.G.) 1
Phase relations of epidote-blueschists
B.W. Evans (Seattle, WA, U.S.A.) 3
Blueschist-to-greenschist transition in metabasites from Tinos Island, Cyclades, Greece: Compositional control or fluid infiltration?
M. Bröcker (Würzburg, F.R.G.) 25
Metamorphic evolution of two different eclogites in the Franciscan Complex, California, U.S.A.
C-W. Oh and J.G. Liou (Stanford, CA, U.S.A.) 41
The eclogite-bearing series of Isla Margarita, Venezuela: Geochemistry of metabasic lithologies in the La Rinconada and Juan Griego Groups
R. Bocchio, L. De Capitani, G. Liborio (Milano, Italy), W.V. Maresch (Münster, F.R.G.) and A. Mottana (Roma, Italy) 55
Eclogites of Paleozoic of early Alpine age in the basement of the Penninic Siviez–Mischabel nappe, Wallis, Switzerland
P. Thélin, M. Sartori, R. Lengeler and J.-P. Schaerer (Lausanne, Switzerland) 71
Evolution in the eclogites in the Rhodope Zone of northern Greece
A. Liati and E. Mposkos (Athens, Greece) 89
Mafic and ultramafic pods with eclogitic relics from the Proterozoic Nagssugtoqidian mobile belt of East Greenland
B. Messiga, R. Tribuzio and R. Vanucci (Pavia, Italy) 101
Field occurences and petrology of eclogites from the Dabie Mountains, Anhui, central China
X. Wang (Stanford, CA, U.S.A.), Y. Jing (Caohu, China), J.G. Liou (Stanford, CA, U.S.A.), G. Pan (Caohu, China), W. Liang (Jilin, China), M. Xia (Caohu, China) and S. Maruyama (Tokyo, Japan) 119
Petrology of eclogites and clinopyroxene–garnet metabasites from the Cabo Ortegal complex (northwestern Spain)
J.I. Gil Ibarguchi, M. Mendia (Bilbao, Spain), J. Girardeau (Paris, France) and J.J. Peucat (Rennes, France) 131
The granulite–eclogite facies transition: A comparison of experimental work and a natural occurrence in the Bergen Arcs, western Norway
H. Austrheim (Oslo, Norway) 163
Garnet peridotite and associated high-grade rocks from Sulawesi, Indonesia
H. Helmers, P. Maaskant and T.H.D. Hartel (Amsterdam, The Netherlands) 171
Thermobarometry, diffusion modelling and cooling rates of crustal garnet peridotites: Two examples from the Moldanubian zone of the Bohemian Massif
L.G. Medaris Jr., H.F. Wang (Madison, WI, U.S.A.), Z. Mísař and E. Jelínek (Prague, Czechoslovakia) 181
Oxygen isotope systematics of eclogite mineral phases from South Africa
FA. Caporuscio (Boulder, CO, U.S.A.) 263
Morphology, physical properties and paragenesis ofinclusion-bearing diamonds from Yakutian kimberlites
V.K. Garanin and G.P. Kudryavtseva (Moscow, U.S.S.R.) 211
Behaviour of rare-earth elements during high-pressure metamorphism
V.S. Shatsky, O.A. Lozmenko and N.V. Sobolev (Novosibirsk, U.S.S.R.) 219
Magma mixing versus xenocryst assimilation: The genesis of trachyandesites in Sancy volcano, Massif Central, France
D. Briot (Clermont-Ferrand, France) 227
Chemical transfer between mantle xenoliths and basic magmas: Evidence from oceanic magma chambers. The Trinity ophiolite (northern California)
C. Lécuyer (Rennes, France) 243
Geothermobarometry in albite–garnet orthogneisses: A case study from the Gran Paradiso nappe (Western Alps)
E. Le Goff and M. Ballèvre (Rennes, France) 261
Evolution of metamorphic fluids in shear zones: The record from the emralds of Habachtal, Tauern Window, Austria
Y.Y. Nwe (Rangoon, Burma) and G. Grundmann (Garching, G.D.R.) 281
